Carrer Objective

AI and Machine Learning undergraduate skilled in Python, Machine Learning, Deep Learning, Generative AI and LLM applications. Experienced in building AI solutions using LangChain, Hugging Face, FastAPI, Streamlit and Gradio with strong problem-solving and software development skills.

Technical Skills

Languages: Python, Java, JavaScript, SQL, C

Generative AI: OpenAI API, LangChain, Hugging Face, Prompt Engineering, RAG,

Data Science: Pandas, NumPy, Matplotlib, Data Visualization, EDA

Frameworks: FastAPI, Flask, Gradio, Streamlit

Databases: Oracle, MySQL, MongoDB

Tools: Git, GitHub, VS Code, Jupyter Notebook, Google Colab

Experience

Cyber Privilege

Aug 2025 – Dec 2025

Digital Forensics Intern

- Developed Python automation scripts for log analysis, data extraction and workflow optimization.
- Performed data preprocessing, technical documentation and analytical problem solving using Python.

NullClass

May 2025 – Jul 2025

Cyber Security Intern

- Built Python scripts to automate security testing and repetitive development tasks.
- Collaborated in Agile teams while improving debugging and software development skills.

Projects

AI Resume Analyzer using LLMs

- Developed an AI-powered ATS Resume Analyzer using Python, Gradio and LLM APIs.
- Implemented resume parsing, job description matching and intelligent resume feedback generation.

Enterprise Document Chatbot (RAG)

- Built a Retrieval-Augmented Generation chatbot capable of answering questions from PDF documents.
- Designed an interactive Gradio interface for real-time document interaction.

AI Interview Preparation Assistant

- Designed an AI interview coach generating role-specific technical and HR interview questions.
- Created personalized interview feedback using LLMs and prompt engineering.

Certifications

- Fortinet Certified Associate Cybersecurity
- ISC2 Candidate
- Cisco: CCNA, Introduction to Cybersecurity, Networking Essentials, Python Essentials, HTML Essentials, CSS Essentials, JavaScript Essentials
- Security Blue Team – Introduction to Digital Forensics
- Cybersecurity Job Simulations – Mastercard, Deloitte, Tata, Telstra

Education

Vignan's Institute of Information Technology

2023 – 2027

B.Tech – Computer Science (Cybersecurity)

CGPA: 8.52

Sri Chaitanya Junior College

2021 – 2023

Intermediate (MPC)

91.2%

Hackathons & Technical Events

- HackWithInfy 2026 (Round 2), Google Big Code Challenge(Round 2), HackVega 2.0(Round 3), AI Bootcamps & Workshops, and 10+ CTF competitions.
- Organized and coordinated a Capture The Flag (CTF) competition for cybersecurity students at the college level.
